CLENBUTEROL

Active Ingredients: Clenbuterol Hidrocloruro 50 Mcg

DISCRPTION

CLENBUTEROL tablets contain the active substance clenbuterol hydrochloride; it is a drug with fast bronchodilator action. It relaxes bronchial smooth muscle, removes hoarseness, and makes breathing easier. CLENBUTEROL is used to treat bronchitis with a bronchial obstructive syndrome, for the prevention and relief of bronchospasm in bronchial asthma and other lung diseases. Clenbuterol is a drug that stimulates beta 2 receptors. It is a group of drugs that stimulates the "sympathetic nervous system", which protects us in an alarm situation called "run or fight" in our body. Area of use Used in the treatment of asthma and COPD

Storage: Store in a dark, dry place, at room temperature. Do not refrigerate Keep out of reach of children.
